◆ A NOTE FROM OUR CEO

Albert Qweku Agyei
CEO, Codolla Studio

“

Every business in Ghana deserves to look as good online as the work it does offline. That is why we started Codolla: to give growing businesses the websites, apps, software and brands that win their customers' trust, built here in Kumasi to a standard that competes anywhere.

If you have an idea, we would love to help you make it impossible to ignore.

ALBERT QWEKU AGYEI · KUMASI

◆ BRANDING

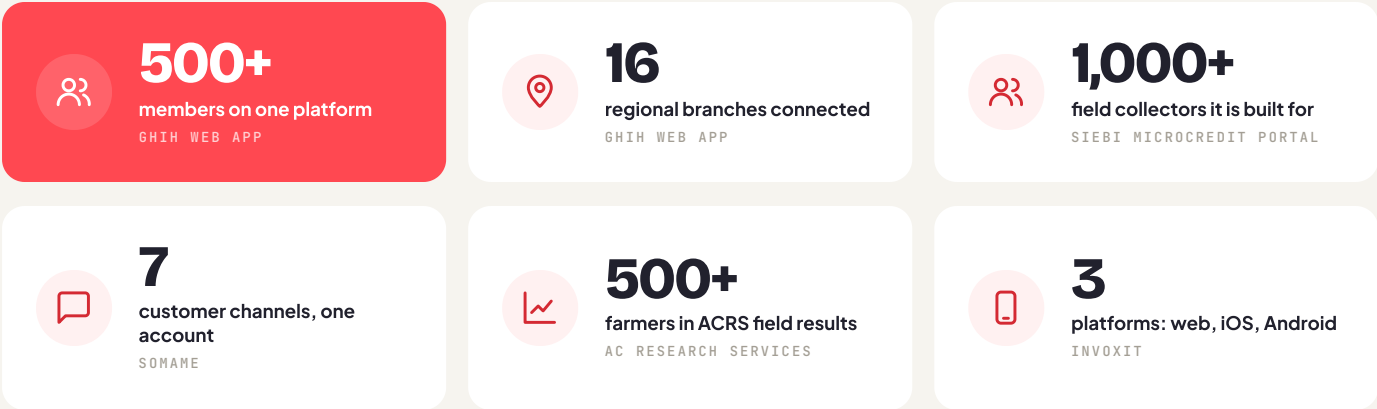

Same business. Sharper identity.

Logos redrawn to stay clear on signs, uniforms, phones and print.

◆ RESULTS

The numbers **behind the work.**

◆ CLIENT WORDS

What clients say.

“

Codolla understood that our website had to prove our fieldwork, not just describe it. The new site puts our results and our people front and centre, and partners anywhere can find the right research area and reach us in a few clicks.

Christopher Agyemang
CEO, AC Research Services

“

Our members are spread across regional branches and many specialisations. Codolla gave the Institute one digital home for membership, events and publications, and the team understood how a professional body like ours actually works.

Dr. Dauda Mohammed Mujitaba
President, Ghana Institute of Horticulturists

“

Land administration depends on records people can trust. Codolla brought our landowners, parcels, ground-rent billing, payments and maps into one secure register, so our staff can find and update information from a single source.

E.T.N Nartey
Administrator, Prampram Customary Lands Secretariat
